

Membership board

I have known the Fisher family for ten year now, and have become good friends with them. Matt grew up in a boating family in Falmouth, He would like raise his family in the same way.

Matt has worked in the marine industry his whole life. He has worked on tugs and is a licensed captain. He also has worked in the marine construction business, building docks, sea walls and dredging.

I believe that the fisher family are perfect candidates for club membership. They are a new family expecting a little girl any day now.

They are both hard working and skilled people. Matt skills in the marine industry will be very useful to the club. They have a passion for boating and will help grow the club in a good direction for the future.

Thanks Brian Sawyer

Rear Commodore WBYC

To the membership committee,

I am writing on behalf of Matt & Natassia Fisher of Mashpee to support their endeavor of being accepted as wbyc members in 2019.

Over the years I have gotten to know the Fisher family and can honestly say Matt & Natassia would make a wonderful addition to our membership! Matt being a native cape codder embodies the traditional sea faring life, working on the water day in and day out on his tug- respecting the ocean and also enjoying all it offers. Natassia loves the cape too so much in fact you wouldn't know she isn't a native?!

In fact, that is how we came to know the Fishers- from enjoying the water- They are always out fishing, clamming, just enjoying the water and sun! Matt has been one of Brian's oldest fishing buddies and it was inevitable that I would get to know natassia, and I am so glad that I did!

As our family grew a couple of years ago with our son Cormac, theirs is about to any day with the birth of their daughter! Matt has already said on more than one occasion that he can't wait to put his daughters name on the mooring list!! Gotta love that! And we have spoken over the years about how it is really important to them both, as it was to us, to have some foundations of community in place. Matt wants his family to enjoy all that he grew up knowing & loving on the cape; sailing, swimming & fishing.

They have been very impressed whenever wbyc has been talked about; so, we were ecstatic when they approached us about membership! Waquoit Bay Yacht Club is a small community, we are joined together by a common bond; we are an independent lot and through hard work we are able to enjoy the beauty of the bay and all it has to offer. I can see Matt & Natassia becoming involved from the get go, they are both hard working, get it done type of people that will jump in when help is needed.

Throughout the years they have been guests of ours or the Alfieri's to the club for the occasional private party, formal function or just being out on our boat and have even enjoyed grill night once or twice! So, this would be a great next step for continuing the club's legacy.

Please feel free to contact me with any questions regarding my sponsorship of the Fishers.

I wish you all a very happy spring and see you soon on the water!

Best,  
Caiti Sawyer
