Waquoit, MA 02536

March 31, 2019

Dear Membership Committee,

We are very interested in joining the yacht club to become more involved in the Waquoit Village community, make new friends and continue our passion for spending time on the water. We are raising our two young children Hunter (7yo) and Presley (6yo) to appreciate, learn and respect the ocean and all the transformational activities that it offers. They have spent their springs, summers and falls exploring the Bay, Washburn Island and the National Research Preserve.

We met while working together in San Francisco in the early 2000's and eventually relocated to the Cape. Our first home was actually a rental property on Nichols Road that overlooked the Bay and the northern end of Washburn Island. We enjoyed many mornings and evenings of watching the wildlife and spectacular views that the bay has to offer. As our family began to grow, we decided to buy a home right up the street on Parsons Lane. A large part of our decision to purchase our home was the proximity to Waquoit Bay.

We spend as much time possible on our boat in the summer fishing the sound, day excursions to MVY and the Elizabeth islands, as well as shell fishing and relaxing in the Bay. Our other (land based) hobbies include landscaping, gardening and raising poultry (laying hens and Thanksgiving turkeys).

The Stuart's have much to offer the club. We enjoy volunteering in our community, Sunshine is a very active participant in many local educational and charitable organizations. Sunshine's professional skills includes event planning, community organization and fundraising. Stephen's professional experience is managing large scale commercial construction projects as well as hands on experience in home building and repair. We are hoping to help the club in any way possible by volunteering in any capacity.

Thank you for your consideration.

Yours truly,

The Stuart's
